

AFZAL

CYBERSECURITY STUDENT & WEB DEVELOPER

Location: Islamabad, Pakistan | **Email:** contact@afzosec.com | **LinkedIn:** linkedin.com/in/afzal | **GitHub:** github.com/afzosec

PROFESSIONAL SUMMARY

Cybersecurity student with a strong background in web development, backend architecture, and core computer science principles. Experienced in developing full-stack web applications using Python, Flask, C++, HTML5, CSS3, and JavaScript. Passionate about secure software engineering, web application security, data structures, and technical content creation under the brand **Afzosec**.

TECHNICAL SKILLS

Languages: Python, C++, HTML5, CSS3, JavaScript, SQL
Backend & Web: Flask, RESTful APIs, Jinja2 Templating, SQLite, PostgreSQL
Core CS & Security: Data Structures & Algorithms (DSA), Web Application Security, Network Fundamentals, Linux/Unix
Tools & Utilities: Git, GitHub, VS Code, VirtualBox, Excalidraw

PROJECTS & DEVELOPMENT

Afzosec - Portfolio & Cybersecurity Web Platform 2026

- Engineered a custom dynamic web platform from scratch utilizing Python (Flask) for backend logic and structured HTML5/CSS3/JS for responsive frontend presentation.
- Implemented secure server-side form processing and integrated relational database models (SQLite/SQLAlchemy) to manage contact requests and client communications.
- Configured clean routing structures, static asset distribution, dynamic Jinja templating, and custom downloadable file handlers.

Cybersecurity Educational & Content Platform 2026

- Authored technical deep-dives explaining attack vectors, vulnerability analysis, and network protocols for security enthusiasts.
- Created visual architectural diagrams and attack flow sketches using Excalidraw for educational video production.

EDUCATION

FAST-NUCES — Bachelor of Science in Cybersecurity Islamabad, Pakistan

Current Status: 4th Semester

- Relevant Coursework:** Data Structures & Algorithms, Object-Oriented Programming (C++), Computer Networks, Database Management Systems, Web Development, Operating Systems.

KEY INTERESTS

Web Application Security, Backend Architecture & API Design, Technical Blogging & Content Creation, Gym & Fitness Training.
